SUMMARY

Fullstack Developer with over 2 years of experience in end-to-end software development. Specialized in building scalable web applications and managing server infrastructure. Proficient in Laravel and modern frontend technologies, with a strong focus on efficiency and clean code.

EXPERIENCE

PT. Dataquest Leverage Indonesia

May 2024 — Present

Web Developer & Server Administrator

- Developed and maintained enterprise-level web applications using Laravel, PostgreSQL and MySQL.
- Managed and optimized Linux-based servers, ensuring high availability and security.
- Configured and deployed Nginx web servers and managed database migrations.
- Collaborated with cross-functional teams to integrate SSO systems.

Freelance

Apr 2023 — Feb 2024

Fullstack Developer

- Built custom web solutions for various clients using Laravel, React, and Tailwind CSS.
- Successfully delivered 5+ projects from requirements gathering to final deployment.
